

54802-2

The diagram illustrates the installation process in eight numbered steps:

- Step 1:** Mounting the base plate to the wall using two screws.
- Step 2:** Mounting the side plate to the base plate using two screws.
- Step 3:** Inserting the mounting pins into the side plate.
- Step 4:** Connecting the power wires (L, N, and ground) to the terminal block on the back of the fixture.
- Step 5:** Mounting the main body of the fixture to the side plate using a screw.
- Step 6:** Rotating the main body to the desired position.
- Step 7:** Rotating the main body to the desired position (repeated for emphasis).
- Step 8:** Rotating the main body to the desired position (repeated for emphasis).

NO

Do not touch the hot surface.
